

HATiP

HIV & AIDS Treatment in Practice

Issue 78 | 28 November 2006

In this issue:

Scaling up laboratory capacity for the coming storm of XDR-TB, and why the HIV treating community must get involved now; *page 2*

Scaling up laboratory capacity for the coming storm of XDR-TB, and why the HIV treating community must get involved now

about HATiP

A regular electronic newsletter for health care workers and community-based organisations on HIV treatment in resource-limited settings.

The newsletter is edited by Theo Smart (Cape Town) and Keith Alcorn, NAM's Senior Editor (London).
