

PROUD and PrEPared

The Medical Research Council, NAM, Sigma Research and ReShape are proud to invite you to the World Premiere screening of:

A video documentary, directed by Nicholas Feustel and funded by the MRC, on the PROUD Study, a two year study that showed how a daily pill could offer excellent protection against HIV in the real world.

The screening will be introduced by Nicholas Feustel and followed by an open discussion on pre-exposure prophylaxis (PrEP) with a panel of community experts:

Gus Cairns (Community activist and NAM Editor)

Charlie Witzel (PROUD participant and Research Assistant at Sigma Research)

Greg Mitchell (PROUD participant)

The event will be facilitated by Will Nutland from Sigma Research

Come and find out more about PrEP, why we need it, how effective it is and what are the next steps for access in the UK.

1st July 2015 - 7.30pm - Cinema Museum

2 Dugard Way, London SE11 4TH

Doors to the bar/cafe will open at 6.30pm
