	Trade	name	Formulation		Pills/ day	Major side effects	Food requireme
Single-tablet regi	mens						
Bictegravir/ emtricitabine/tenofovir alafenamide	Biktarvy	9883	Tablet comprising 50mg bictegravir, 200mg emtricitabine, 25mg tenofovir alafenamide	One tablet once a day	1	Common: Depression, abnormal dreams, headache, dizziness, tiredness, nausea, diarrhoea Rare: Suicidal behaviour, severe rash with fever (Stevens-Johnson syndrome)	Take with or without food
Darunavir/cobicistat/ emtricitabine/tenofovir alafenamide	Symtuza	JG	Tablet comprising 800mg darunavir, 150mg cobicistat, 200mg emtricitabine, 10mg tenofovir alafenamide	One tablet once a day	1	Common: Allergic (hypersensitivity) reaction, loss of appetite, abnormal dreams, diabetes, raised lipid or liver or pancreatic enzyme or creatinine levels, headache, dizziness, diarrhoea, nausea, vomiting, abdominal pain, bloating, indigestion, flatulence, facial swelling, rash, itching, aching joints or muscles, tiredness, feeling weak Rare: Severe rash with fever (Stevens-Johnson syndrome)	Take with food
Dolutegravir/abacavir/ lamivudine	Triumeq	572 Tri	Tablet comprising 50mg dolutegravir, 600mg abacavir, 300mg lamivudine	One tablet once a day	1	Common: Difficulty in sleeping, sleepiness, abnormal dreams, depression, headache, diarrhoea, nausea, fatigue, rash, itching, vomiting, stomach pain, dizziness, hair loss, depression, flatulence, abdominal pain, bloating, muscle pain and discomfort, joint pain, an irritated or runny nose, cough, indigestion, gastric reflux and loss of appetite, fever, anxiety Rare: Allergic (hypersensitivity) reaction, lactic acidosis (too much lactic acid in the blood), suicidal thoughts and behaviours, liver failure	Take with or without food
Dolutegravir/ lamivudine	Dovato	SV 137	Tablet comprising 50mg dolutegravir and 300mg lamivudine	One tablet once a day	1	Common: Headache, dizziness, drowsiness, tiredness, depression, anxiety, difficulty in sleeping, abnormal dreams, nausea, diarrhoea, abdominal pain, vomiting, flatulence, increased liver enzymes or creatinine phosphokinase, rash, itching, hair loss, muscle and joint pains Rare: Suicidal thoughts, liver failure, lactic acidosis (too much lactic acid in the blood)	Take with or without food
Dolute gravir/ril pivirine	Juluca	SV J3T	Tablet comprising 50mg dolutegravir and 25mg rilpivirine	One tablet once a day	1	Common: Difficulty in sleeping, abnormal dreams, depression, depressed mood, anxiety, headache, dizziness, drowsiness, fatigue, nausea, diarrhoea, abdominal pain, vomiting, flatulence, dry mouth, decreased appetite, rash, itching, increased liver enzymes or bilirubin or creatinine phosphokinase or lipase or pancreatic amylase, decreased white blood cell count, haemoglobin or platelet count, increased total or LDL cholesterol, increased triglycerides Rare: Suicidal thoughts or behaviour, hypersensitivity reaction (severe rash, fever, weakness, facial swelling); liver failure	Take with a me
Doravirine/lamivudine/ tenofovir disoproxil	Delstrigo	\$776	Tablet comprising 100mg doravirine, 300mg lamivudine, 245mg tenofovir disoproxil	One tablet once a day	1	Common: Abnormal dreams, difficulty in sleeping, nightmare, depression, headache, dizziness, drowsiness, cough, an irritated or runny nose, nausea, diarrhoea, abdominal pain, vomiting, hair loss, rash, muscle disorders, fatigue, fever Rare: Lactic acidosis (too much lactic acid in the blood), suicidal thoughts, hepatitis, acute kidney failure or damage	Take with or without food
Elvitegravir/cobicistat/ emtricitabine/tenofovir alafenamide	Genvoya	510	Tablet comprising 150mg elvitegravir, 150mg cobicistat, 200mg emtricitabine, 10mg tenofovir alafenamide	One tablet once a day	1	Common: Abnormal dreams, headache, dizziness, nausea, diarrhoea, vomiting, flatulence, rash, tiredness Rare: Depression, suicidal thoughts	Take with food
Elvitegravir/cobicistat/ emtricitabine/tenofovir disoproxil	Stribild	1	Tablet comprising 150mg elvitegravir 150mg cobicistat 200mg emtricitabine 245mg tenofovir disoproxil	One tablet once a day	1	Common: Nausea, diarrhoea, vomiting, abnormal dreams, headache, fatigue, dizziness, insomnia, rash, itching, abdominal pain, bloating, flatulence, constipation, sleepiness, weakness, skin darkening, low white blood cell count, low blood phosphate levels, raised triglyceride and blood sugar levels, and raised liver enzyme, amylase, creatinine or creatine kinase levels Rare: Lactic acidosis (too much lactic acid in the blood), kidney failure, suicidal thoughts and behaviours, liver failure, kidney failure, pancreatitis, allergic (hypersensitivity) reaction, severe rash	Take with food
Rilpivirine/ emtricitabine/tenofovir alafenamide	Odefsey	GSI	Tablet comprising 25mg rilpivirine, 200mg emtricitabine, 25mg tenofovir alafenamide	One tablet once a day	1	Common: Difficulty in sleeping, abnormal dreams, depression, headache, dizziness, loss of appetite, nausea, abdominal pain, vomiting, dry mouth, indigestion, flatulence, diarrhoea, rash, tiredness, low white or red blood cell count, low platelet count, raised lipid or pancreatic enzyme or liver enzyme levels Rare: Severe rash and fever	Take with food
Rilpivirine/ emtricitabine/tenofovir disoproxil	Eviplera	GSI	Tablet comprising 25mg rilpivirine, 200mg emtricitabine, 245mg tenofovir disoproxil	One tablet once a day	1	Common: Raised cholesterol and triglyceride levels, loss of appetite, depression, sleep disorders, abnormal dreams, sleepiness, nausea, vomiting, diarrhoea, dizziness, insomnia, headache, weakness, rash, itching, abdominal pain, dry mouth, fatigue, bloating, flatulence, changes in kidney function, raised liver enzyme, amylase and creatine kinase levels, low blood phosphate levels, skin darkening, low white blood cell count Rare: Lactic acidosis (too much lactic acid in the blood), kidney failure	Take with food
Nucleoside/nucleoti	Emtriva	Se transcriptas	200mg capsule	200mg once a day	1	Common: Headache, difficulty in sleeping, abnormal dreams, dizziness, diarrhoea, nausea, vomiting, abdominal pain, rash, itching, low white blood cell count (neutropenia), low red blood cell count (anaemia), raised levels of triglycerides, bilirubin and glucose Rare: Lactic acidosis (too much lactic acid in the blood), liver damage	Take with or without food
Lamivudine Generic product, appearance will vary		generic	150 and 300mg tablets	150mg twice a day or 300mg once a day	2 1	Common: Headache, feeling sick, being sick, diarrhoea, stomach pains, tiredness, lack of energy, fever (high temperature), general feeling of being unwell, muscle pain and discomfort, joint pain, difficulty in sleeping (insomnia), cough, irritated or runny nose, rash, hair loss (alopecia) Rare: Lactic acidosis (too much lactic acid in the blood), liver damage	Take with or without food
Tenofovir disoproxil Generic product, appearance will vary NRTI fixed-dose con	nbinatio	generic	245mg tablet	245mg once a day	1	Common: Nausea, vomiting, diarrhoea, flatulence, dizziness, low blood phosphate levels, raised liver enzymes, weakness, rash, headache, abdominal pains, and bloating Rare: Kidney problems, bone thinning	Take with foo
Abacavir/lamivudine Generic product, appearance will vary		generic	Tablet comprising 600mg abacavir and 300mg lamivudine	One tablet once a day	1	Common: Headache, nausea and vomiting, diarrhoea, stomach pains, loss of appetite, tiredness, lack of energy, fever, general feeling of being unwell, difficulty sleeping, muscle pain and discomfort, joint pain, cough, irritated or runny nose, skin rash, hair loss Rare: Allergic (hypersensitivity) reaction, lactic acidosis, (too much lactic acid in the blood)	Take with or without food
Emtricitabine/tenofovir alafenamide	Descovy	225	Tablet comprising 200mg emtricitabine and 10mg or 25mg* tenofovir alafenamide	One tablet once a day. The 10mg version is recommended for use in combination with some boosted protease inhibitors	1	Common: Nausea, abnormal dreams, headache, dizziness, diarrhoea, vomiting, stomach pain, flatulence, rash and fatigue Rare: Swelling of the skin, face, lips, tongue or throat	Take with or without food
Emtricitabine/tenofovir disoproxil Generic product, appearance will vary Integrase inhibitors		generic	Tablet comprising 200mg emtricitabine and 245mg tenofovir disoproxil	One tablet once a day	1	Common: Diarrhoea, vomiting, nausea, dizziness, headache, rash, feeling weak, pain, stomach pain, difficulty sleeping, abnormal dreams, feeling bloated, flatulence, allergic reactions, such as wheezing, swelling or feeling light-headed Rare: Kidney failure, lactic acidosis (too much lactic acid in the blood), bone thinning, pancreatitis, hepatitis	Best taken wit but can be tak an empty stor
Dolutegravir	Tivicay	50	50mg tablet	50mg once a day or 50mg twice a day if taken with efavirenz, nevirapine or tipranavir, or for HIV known to be resistant to integrase inhibitors	1 or 2	Common: Nausea, diarrhoea, headache, rash, itching, vomiting, stomach pain or discomfort, abnormal dreams, fatigue, flatulence, increase in liver enzymes, increase in creatine phosphokinase (enzymes produced in the muscles), insomnia, dizziness and headache, depression, anxiety Rare: Allergic (hypersensitivity) reaction (rash, fever, muscle pain, blistering), liver inflammation, suicidal thoughts	Take with or without food
Raltegravir	Isentress	227	400* and 600mg tablets	400mg twice a day or two 600mg tablets once a day	2	Common: Loss of appetite, headache, difficulty in sleeping, abnormal dreams, depression, dizziness, vertigo, restlessness, abdominal pain, bloating, flatulence, diarrhoea, nausea, vomiting, indigestion, rash, weakness, fatigue, fever, raised liver or pancreatic enzymes, raised triglycerides Rare: Allergic (hypersensitivity) reaction (rash, fever, muscle pain, blistering), liver failure, kidney failure, suicidal thoughts and behaviours	Take with or without food
Non-nucleoside revo	+		itors (MNDTIs)				
	erse tran	scriptase inhib	itors (ivivitis)				
Doravirine	Pifeltro	scriptase inhib	100mg tablet	100mg once a day	1	Common: Abnormal dreams, difficulty in sleeping, nightmare, depression, headache, dizziness, drowsiness, nausea, diarrhoea, abdominal pain, vomiting, rash, tiredness Rare: Suicidal thoughts, acute kidney injury, depression, kidney stones	Take with or without food
Efavirenz Generic product,		generic inhib	. ,	100mg once a day	1 1 or 3	vomiting, rash, tiredness	without food Take on an en
Doravirine Efavirenz Generic product, appearance will vary Rilpivirine		\$700	100mg tablet 600mg tablet and		1 1 or 3	vomiting, rash, tiredness Rare: Suicidal thoughts, acute kidney injury, depression, kidney stones Common: Rash, itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels	Take on an em stomach, prefe at bedtime
Efavirenz Generic product, appearance will vary	Pifeltro	\$700	100mg tablet 600mg tablet and 200mg capsule	600mg once a day	1 1 or 3 1	vomiting, rash, tiredness Rare: Suicidal thoughts, acute kidney injury, depression, kidney stones Common: Rash, itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels	without food Take on an emstomach, prefe
Efavirenz Generic product, appearance will vary Rilpivirine Protease inhibitors Atazanavir Generic product,	Pifeltro	\$700	100mg tablet 600mg tablet and 200mg capsule 25mg tablet	600mg once a day 25mg once a day 300mg with 100mg ritonavir	1	vomiting, rash, tiredness Rare: Suicidal thoughts, acute kidney injury, depression, kidney stones Common: Rash, itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels Rare: Severe rash and allergic (hypersensitivity) reaction Common: Nausea, diarrhoea, rash, abdominal pain, headache, vomiting, heartburn, tiredness, raised bilirubin levels, sometimes leading to jaundice	without food Take on an em stomach, prefe at bedtime Take with a m
Efavirenz Generic product, appearance will vary Rilpivirine Protease inhibitors Atazanavir Generic product, appearance will vary Atazanavir/ cobicistat Darunavir Generic product, appearance will vary	Pifeltro Edurant	\$700	100mg tablet 600mg tablet and 200mg capsule 25mg tablet 150, 200 and 300mg capsules Tablet comprising 300mg atazanavir and 150mg cobicistat 600 and 800mg tablets	600mg once a day 25mg once a day 300mg with 100mg ritonavir once a day One tablet once a day 800mg with 100mg ritonavir once a day or 600mg with 100mg ritonavir twice a day	1	Common: Rash, itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels Rare: Severe rash and allergic (hypersensitivity) reaction Common: Nausea, diarrhoea, rash, abdominal pain, headache, vomiting, heartburn, tiredness, raised bilirubin levels, sometimes leading to jaundice Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Increased appetite, difficulty in sleeping, abnormal dreams, headache, dizziness, altered taste, raised bilirubin levels, sometimes leading to jaundice, nausea, vomiting, diarrhoea, indigestion, abdominal pain, bloating, flatulence, dry mouth, rash, tiredness Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Raised triglyceride or cholesterol levels, diabetes, insomnia, headache, dizziness, peripheral neuropathy, diarrhoea, nausea, vomiting and abdominal pain, rash, itching, tiredness and fatigue Rare: Abnormal liver function, changes in heart rhythm, heart attack, pancreatitis, hepatitis	Take on an en stomach, pref at bedtime Take with a m Take with foc
Efavirenz Generic product, appearance will vary Rilpivirine Protease inhibitors Atazanavir Generic product, appearance will vary Atazanavir/ cobicistat Darunavir Generic product, appearance will vary Darunavir/ Darunavir/	Pifeltro Edurant	generic generic 3641	100mg tablet 600mg tablet and 200mg capsule 25mg tablet 150, 200 and 300mg capsules Tablet comprising 300mg atazanavir and 150mg cobicistat	600mg once a day 25mg once a day 300mg with 100mg ritonavir once a day One tablet once a day 800mg with 100mg ritonavir once a day or 600mg with	1 2 or 3	vomiting, rash, tiredness Rare: Suicidal thoughts, acute kidney injury, depression, kidney stones Common: Rash, itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels Rare: Severe rash and allergic (hypersensitivity) reaction Common: Nausea, diarrhoea, rash, abdominal pain, headache, vomiting, heartburn, tiredness, raised bilirubin levels, sometimes leading to jaundice Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Increased appetite, difficulty in sleeping, abnormal dreams, headache, dizziness, altered taste, raised bilirubin levels, sometimes leading to jaundice, nausea, vomiting, diarrhoea, indigestion, abdominal pain, bloating, flatulence, dry mouth, rash, tiredness Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Raised triglyceride or cholesterol levels, diabetes, insomnia, headache, dizziness, peripheral neuropathy, diarrhoea, nausea, vomiting, and abdominal pain, rash, itching, tiredness and fatigue	without food Take on an emstomach, prefat bedtime Take with a management of the second of the seco
Efavirenz Generic product, appearance will vary Rilpivirine Protease inhibitors Atazanavir Generic product, appearance will vary Darunavir Generic product, appearance will vary Darunavir/ cobicistat Darunavir/ copinavir/ritonavir Generic product, appearance will vary	Edurant Evotaz Rezolsta	generic generic 3641	100mg tablet 600mg tablet and 200mg capsule 25mg tablet 150, 200 and 300mg capsules Tablet comprising 300mg atazanavir and 150mg cobicistat 600 and 800mg tablets Tablet comprising 800mg darunavir and	600mg once a day 25mg once a day 300mg with 100mg ritonavir once a day One tablet once a day 800mg with 100mg ritonavir once a day or 600mg with 100mg ritonavir twice a day	1 2 or 3	vomiting, rash, tiredness Rare: Suicidal thoughts, acute kidney injury, depression, kidney stones Common: Rash, itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels Rare: Severe rash and allergic (hypersensitivity) reaction Common: Nausea, diarrhoea, rash, abdominal pain, headache, vomiting, heartburn, tiredness, raised bilirubin levels, sometimes leading to jaundice Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Increased appetite, difficulty in sleeping, abnormal dreams, headache, dizziness, altered taste, raised bilirubin levels, sometimes leading to jaundice, nausea, vomiting, diarrhoea, indigestion, abdominal pain, bloating, flatulence, dry mouth, rash, tiredness Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Raised triglyceride or cholesterol levels, diabetes, insomnia, headache, dizziness, peripheral neuropathy, diarrhoea, nausea, vomiting and abdominal pain, rash, itching, tiredness and fatigue Rare: Abnormal liver function, changes in heart rhythm, heart attack, pancreatitis, hepatitis Common: Diarrhoea, vomiting, nausea, indigestion, rash, itching, abdominal pain, bloating, flatulence, headache, loss of appetite, abnormal dreams, tiredness, diabetes, raised creatine or amylase or triglyceride or cholesterol or liver enzyme levels	without food Take on an en stomach, pref at bedtime Take with a m Take with food
Efavirenz Generic product, appearance will vary Rilpivirine Protease inhibitors Atazanavir Generic product, appearance will vary Atazanavir/ cobicistat Darunavir Generic product, appearance will vary Darunavir/ cobicistat Lopinavir/ritonavir Generic product, appearance will vary Entry and CCR5 inhi	Edurant Evotaz Rezolsta	generic generic 3641	100mg tablet 600mg tablet and 200mg capsule 25mg tablet 150, 200 and 300mg capsules Tablet comprising 300mg atazanavir and 150mg cobicistat 600 and 800mg tablets Tablet comprising 800mg darunavir and 150mg cobicistat Tablet comprising 200mg lopinavir and	600mg once a day 25mg once a day 300mg with 100mg ritonavir once a day One tablet once a day 800mg with 100mg ritonavir once a day or 600mg with 100mg ritonavir twice a day One tablet once a day	1 2 or 3 1 2 to 4	Common: Rash, tirching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels Rare: Severe rash and allergic (hypersensitivity) reaction Common: Nausea, diarrhoea, rash, abdominal pain, headache, vomiting, heartburn, tiredness, raised bilirubin levels, sometimes leading to jaundice Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Increased appetite, difficulty in sleeping, abnormal dreams, headache, dizziness, altered taste, raised bilirubin levels, sometimes leading to jaundice, nausea, vomiting, diarrhoea, indigestion, abdominal pain, bloating, flatulence, dry mouth, rash, tiredness Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Raised triglyceride or cholesterol levels, diabetes, insomnia, headache, dizziness, peripheral neuropathy, diarrhoea, nausea, vomiting and abdominal pain, rash, tiching, tiredness and fatigue Rare: Abnormal liver function, changes in heart rhythm, heart attack, pancreatitis, hepatitis Common: Diarrhoea, vomiting, nausea, indigestion, rash, itching, abdominal pain, bloating, flatulence, headache, loss of appetite, abnormal dreams, tiredness, diabetes, raised creatine or amylase or triglyceride or cholesterol or liver enzyme levels Rare: Abnormal liver function, changes in heart rhythm, heart attack, pancreatitis, hepatitis Common: Nausea, vomiting, diarrhoea, abdominal pain, bloating, flatulence, tiredness, weakness, headache, hea	without food Take on an enstomach, prefat bedtime Take with a management of the second of the seco
Efavirenz Generic product, appearance will vary Rilpivirine Protease inhibitors Atazanavir Generic product, appearance will vary Atazanavir/ cobicistat Darunavir Generic product, appearance will vary Darunavir/ cobicistat Lopinavir/ritonavir Generic product, appearance will vary Entry and CCR5 inhi Fostemsavir	Evotaz Rezolsta	generic generic 3641	100mg tablet 600mg tablet and 200mg capsule 25mg tablet 150, 200 and 300mg capsules Tablet comprising 300mg atazanavir and 150mg cobicistat 600 and 800mg tablets Tablet comprising 800mg darunavir and 150mg cobicistat Tablet comprising 200mg lopinavir and 50mg ritonavir	600mg once a day 25mg once a day 300mg with 100mg ritonavir once a day One tablet once a day 800mg with 100mg ritonavir once a day or 600mg with 100mg ritonavir twice a day One tablet once a day Two tablets twice a day or four tablets once a day	1 2 or 3 1 4 4 2 2	vomiting, rash, tiredness Rare: Sucidal thoughts, acute kidney injury, depression, kidney stones Common: Rash, Itching, abnormal dreams, difficulty concentrating, dizziness, headache, difficulty sleeping, drowsiness, abdominal pain, diarrhoea, nausea, vomiting, tiredness, anxiety, depression, raised triglyceride and liver enzyme levels Rare: Severe rash, psychosis, suicidal feelings, liver failure Common: Insomnia (difficulty sleeping), abnormal dreams, sleep disorders, tiredness, drowsiness, nausea, vomiting, stomach pain or discomfort, reduced appetite, dry mouth, headache, dizziness, depression, low mood, rash, raised cholesterol, liver enzymes or pancreatic amylase, reduced white or red blood cell count, low platelet count, raised triglyceride or lipase levels Rare: Severe rash and allergic (hypersensitivity) reaction Common: Nausea, diarrhoea, rash, abdominal pain, headache, vomiting, heartburn, tiredness, raised bilirubin levels, sometimes leading to jaundice Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Increased appetite, difficulty in sleeping, abnormal dreams, headache, dizziness, altered taste, raised bilirubin levels, sometimes leading to jaundice, nausea, vomiting, diarrhoea, indigestion, abdominal pain, bloating, flatulence, dry mouth, rash, tiredness Rare: Kidney stones, severe rash and fever, changes in heart rhythm Common: Raised triglyceride or cholesterol levels, diabetes, insomnia, headache, dizziness, peripheral neuropathy, diarrhoea, nausea, vomiting and abdominal pain, rash, itching, tiredness and fatigue Common: Diarrhoea, vomiting, nausea, indigestion, rash, itching, abdominal pain, bloating, flatulence, headache, loss of appetite, abnormal dreams, tiredness, diabetes, raised creatine or amylase or triglyceride or cholesterol or liver enzyme levels Rare: Abnormal liver function, changes in heart rhythm, heart attack, pancreatitis, raised lipids or blood sugar, diabetes, high blood pressure, raised liver enzymes, cough, sore throat, runny nose, sin	without food Take on an enstomach, prefat bedtime Take with a management of the second of the seco
