### About the organisation

▲ Centre Director ..... Dr John de Wit

■ Conducts research into the social aspects of prevention and treatment of HIV, hepatitis C and sexually transmitted infections with special reference to gay men, injection drug users, and mobility and migration issues, particularly in Australia and the Asia-Pacific region. Develops innovative research techniques to collect, interpret and disseminate behavioural surveillance and sexual health data, ensuring confidentiality for research participants at all stages of the research process. Works with affected communities and non-governmental organisations so that its research is both informed by community needs and successfully informs governments and policy makers on the state of the HIV and AIDS and hepatitis C epidemics.

■ Recherche les aspects sociaux de la prévention et du traitement du VIH, de l'hépatite C et des MST, particulièrement chez les gais, les toxicomanes et par rapport aux questions de mobilité et d'immigration en Australasie et dans la région Asie-Pacifique. Développe des techniques de recherche innovatrices pour recueillir et disséminer le data sur la surveillance des comportements et la santé sexuelle, en assurant la confidentialité des participants à tous les stades de la recherche. Travaille avec les communautés touchées et les ONG pour que la recherche soit conduite par les besoins de la communauté et pour informer avec succès les gouvernements de l'état des épidémies de VIH et d'hépatite C.

■ Levam a cabo pesquisas na área social da prevenção e do tratamento do IVH, da hepatite C e de infecções transmitidas sexualmente com referência especial para os homossexuais, toxicodependentes que se injectam, mobilidade e migração, particularmente na Austrália e na Ásia. Desenvolve técnicas de pesquisa inovadoras a nível de recolha, interpretação, disseminação e observação comportamental, assegurando a confidencialidade aos participantes na pesquisa em todas as fases do processo da investigação. Trabalha directamente com comunidades e ONGs de modo que a sua pesquisa é, ao mesmo tempo, uma resposta às necessidades da comunidade e informa convenientemente os governos sobre o estado da epidemia de IVH/Sida e hepatite C.

■ Lleva a cabo investigación sobre los aspectos sociales de la prevención y el tratamiento del VIH, la hepatitis C y las infecciones de transmisión sexual, con referencias especiales a los hombres gays, personas que se inyectan drogas y

asuntos relacionados con la movilidad y la emigración, especialmente en Australia y la región de Asia-Pacífico. Desarrolla técnicas innovadoras de investigación para recoger, interpretar y diseminar datos sobre observación del comportamiento y sobre la salud sexual, asegurando la confidencialidad de quienes participan en los estudios en todas las etapas del proceso de investigación. Trabaja con comunidades afectadas y con ONG, de manera que su investigación recibe información sobre las necesidades de la comunidad y además informa con éxito a los gobiernos y a quienes desarrollan las políticas acerca de la condición de las epidemias de VIH/SIDA y hepatitis C.
